

An Accountable Global Health Financing Fund Ensuring Equity, Fairness and Sustainability

G20 Health and Development Partnership - H20 Forum

H20

The WHO Council
on the Economics of
Health for All

A roundtable discussion

Tuesday 19 April, 16.30 - 18.00 (DC Time)

The Indonesian Presidency of the G20 is leading the work of the Joint G20 Health and Finance Task Force (JHFTF). Following the third meeting of the taskforce on 1 April 2022, our high-level roundtable ahead of the IMF Spring Meetings aims to discuss the scope and governance mechanism of the FIF the taskforce aims to create.

The governance of the JHFTF needs decisive action in the coming weeks. This new enhanced dialogue and global cooperation arrangement between health and finance ministries, together with the establishment of the new financing instrument, needs a structured governance and secretariat structure.

To support the discussions on how to achieve these goals set down in the G20 Leaders communique in Rome, the G20 Health and Development Partnership, an officially recognised engagement group of the Italian G20 Presidency, together with leaders in the global health community, will hold a high-level roundtable to examine a concrete framework required to a governance and secretariat structure of the JHFTF in support of the April IMF/World Bank Spring Meetings.

Delivering on the commitment of enhanced international coordination and robust sustainable finance structure will help to prevent and better manage the next global pandemic.

Alan Donnelly Founder and Convenor of the G20 Health and Development Partnership

Prof Mariana Mazzucato Chair, WHO Council on the Economics of Health For All
